

EPASSPORT

Your Portal to Almost Everything

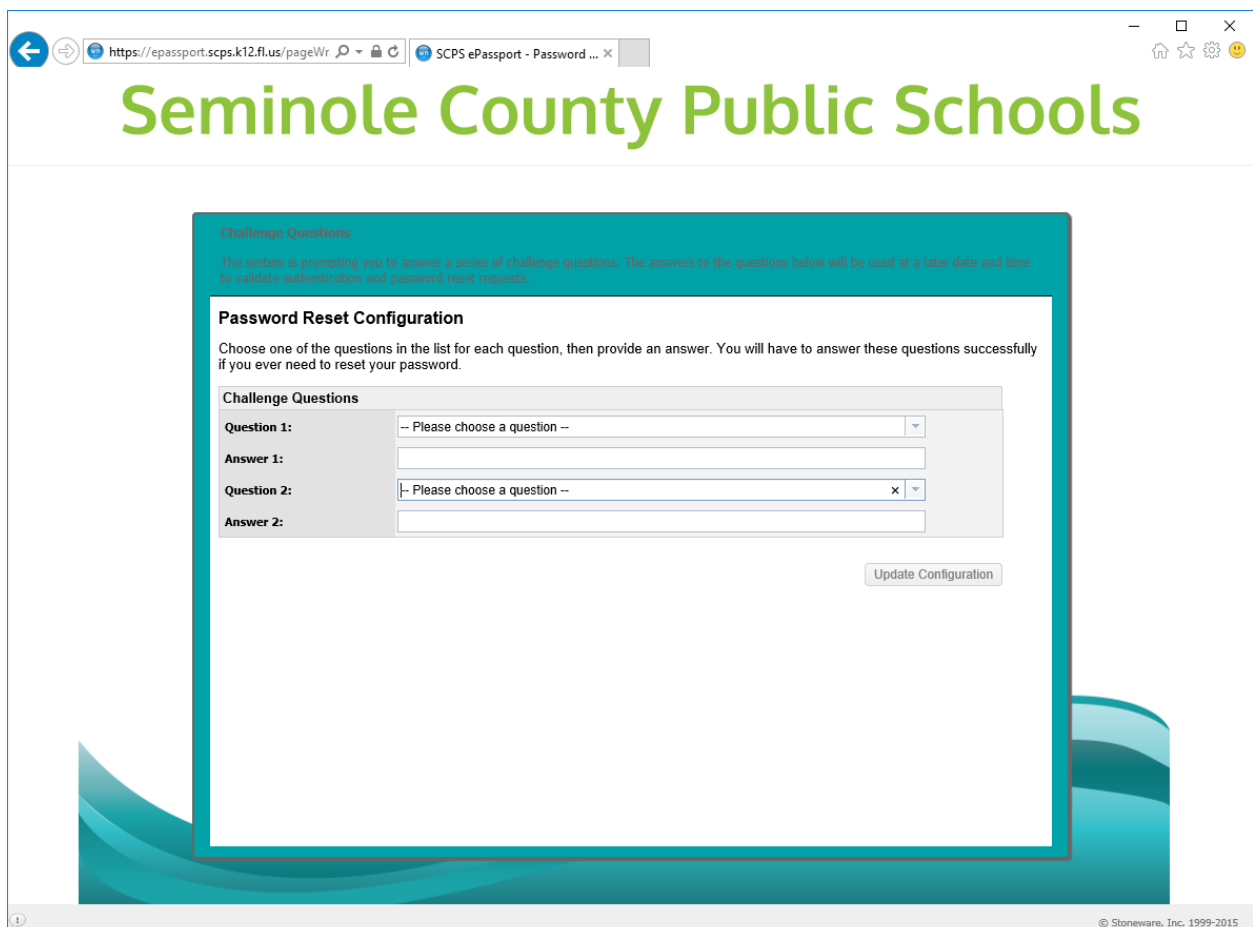

In EPASSPORT students can reset their school network password, access email, office 365 products, eCampus and a whole lot more. This should be the one place you go for educational recourses that help make your time in school a success.

When you log in from home you use your **Student ID number** as your username and your network **password**.

If you have any problems accessing EPASSPORT, please visit the Technology Office only during your lunch period in 06-003.

When you first log into EPASSPORT you will need to set up 2 security questions. These questions will permit you to reset your network password should you forget it.

Below are some examples of what the process looks like.

Challenge Questions

The system is prompting you to answer a series of challenge questions. The answers to the questions below will be used at a later date and time to validate authentication and password reset requests.

Password Reset Configuration

Choose one of the questions in the list for each question, then provide an answer. You will have to answer these questions successfully if you ever need to reset your password.

Challenge Questions	
Question 1:	-- Please choose a question --
Answer 1:	<input type="text"/>
Question 2:	-- Please choose a question --
Answer 2:	What is your favorite song? Where were you born? -- Select this option to enter your own question --
